### Flexible Thinking

Dear \_\_\_\_\_,

Today in class, we learned that **flexible thinking** is sometimes also called divergent or elastic thinking and it is the ability to adapt or adjust to new situations easily. But being able to adapt means more than just “going with the flow”. It means being able to use logic, reasoning, and imagination to come up with new ideas in new situations.

Please encourage your student to share the skills reviewed that they will need to be successful employees in the future.

Please do not hesitate to reach out with any questions or concerns.

Best,

\_\_\_\_\_
